

ActiLume DALI

LRI1667/05 ActiLume G2 Indus Sensor H513

The Philips ActiLume lighting control system consists of a small, lightweight sensor and controller designed for easy integration into luminaires. ActiLume is a true plug & play solution for open-plan (up to 34 luminaires) or cell offices (e.g. 4 luminaires). Used in a master-and-slave luminaire concept, easy to use and easy to install. Specific application brochures are available to help specify and apply the system in an optimal way. Commissioning is optional for all application modes. Using this method, functions can be changed without affecting the electrical installation.
